# Factsheet 07: European Impact and the Road Ahead

## From research to reusable European capability

### The Problem

Europe needs practical, standards-ready ways to adopt PETs in identity and cybersecurity at scale.

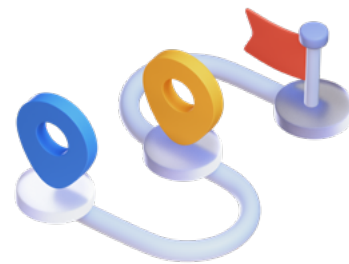

### PRIVIDEMA's Contribution

Outputs include reference architectures, quantitative evaluations, and best-practice guidelines that reduce adoption risk for public bodies, critical infrastructure, and SMEs.

### The Solution

PRIVIDEMA delivers open components, evidence, and guidance; validates prototypes in cross-border pilots; and feeds learnings into European communities and standards.

### European Impact

By 2027, stakeholders gain a clearer, faster path to deploy privacy-preserving identity and CTI solutions that align with EU values and regulations.

Consortium  
7 Partners  
5 Countries

Budget  
€ 5.3 Million  
€ 3.1 EU-funded

Duration  
36 Months  
11/2024 - 10/2027

Funded by the European Union under Horizon Europe and supported by the European Cybersecurity Competence Centre (ECCC).  
Views and opinions expressed are those of the authors only and do not necessarily reflect those of the European Union or ECCC.
